

NC Department of Health and Human Services

Family Planning Annual Report FPAR 2.0 Introduction

NC Division of Public Health,
Women, Infant, and Community Wellness
Section

September 2022

Title X Family Planning Program

- Provides comprehensive and confidential family planning services and preventive health services
- Data is required of all Title X family planning services grantees and are used to:
 - ✓ monitor compliance with statutory requirements;
 - ✓ comply with accountability and federal performance reporting requirements for Title X family planning funds;
 - ✓ guide strategic and financial planning;
 - ✓ respond to inquiries from policy makers and Congress about Title X.

Goals of FPAR 2.0

Improve quality, access, and equity in Title X family planning services

- ✓ The data will assist in determining:
 - ✓ What services are delivered for different populations
 - ✓ Whether communities with the greatest need are receiving services
 - ✓ Settings that need additional support to ensure the provision of quality care

FPAR 2.0

- Change from summarized data collection to encounter-level data collection
- 43 total data elements
- Not all data elements are required for each encounter, but are expected when clinically indicated
- 3 Main Categories
 - Demographic Information
 - Clinical Encounter Information
 - Lab Information

FPAR 2.0
encounter-level
